Notes to the Condensed Financial Statements

For the six months ended 31 December 2015 (Unaudited)

1. General information

The unaudited interim condensed financial statements presented are those of Port Otago Limited ("the Company"), its subsidiaries, associates and share of joint ventures and joint operations ("the Group"). The Company is a limited liability company incorporated in New Zealand and registered under the Companies Act 1993.

2. Summary of significant accounting policies

Basis of preparation

These unaudited condensed interim financial statements have been prepared in accordance with NZ IAS 34 Interim Financial Reporting. The unaudited interim financial statements have been prepared using the New Zealand Dollar as the functional and presentation currency.

The unaudited condensed interim financial statements should be read in conjunction with the consolidated financial statements and related notes in the Company's Annual Report for the year ended 30 June 2015.

Accounting policies

The accounting policies applied are consistent with those of the annual financial statements for the year ended 30 June 2015, as described in those annual financial statements.

To ensure consistency with the current period, comparative figures have been restated where appropriate.

Restatement of the interim report for the six months ended 31 December 2014

As described in the annual financial statements for the year ended 30 June 2015, the Group realised a \$24.713 million gain on the sale of the investment in Lyttelton Port Company. In the interim report for the six months ended 31 December 2014, the Group reported a gain on the sale of the investment of \$11.015 million being the sale proceeds, net of disposal costs, less the carrying value of \$50.642 million at 30 June 2014. The restatement of the statement of comprehensive income for the six months ended 31 December 2014 reflects the reversal of the prior year gains to 30 June 2014, recorded through other comprehensive income of \$13.698 million. These prior year gains are incorporated in the gain on sale of available-for-sale investments disclosed in the condensed income statement.

This restatement has no impact of the previously reported total comprehensive income of \$22.051 million for the period ended 31 December 2014.

3. Investment property valuation

Investment properties are carried at valuations undertaken by independent registered valuers as at 30 June 2015. The Board has received and considered advice from management that there has been no material change to those valuations. Borrowing costs and other costs recognised in the accounting period that are directly attributable to the acquisition of long term investment property development projects are capitalised as part of the cost of those assets.

4. Derivative financial instruments

The Group uses derivative financial instruments (interest rate swaps) to economically hedge its exposure to interest rate risks arising from operational, financing and investment activities.

5. Reconciliation of consolidated operating cash flows

6. Commitments

At 31 December 2015 the Group had commitments/approvals for capital expenditure of \$5.8 million (31 December 2014: \$1.0 million, 30 June 2015: \$13.55 million) which relates to purchases and upgrades of port assets.

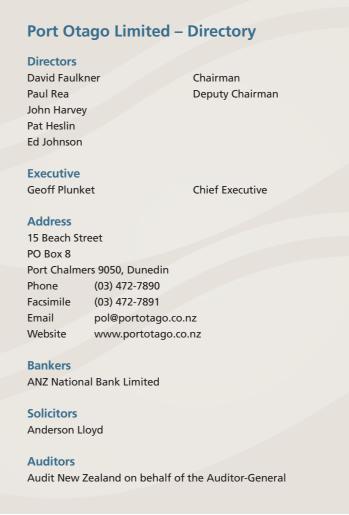

7. Contingencies

There are no material contingent liabilities at 31 December 2015 other than those arising in the normal course of business.

8. Events after balance date

Dividends

On 17 February 2016 the Directors declared an interim dividend of \$3.25 million.

Chairman's Half Year Review

Financial results

The Port Otago Group's unaudited tax-paid result was \$5.5 million for the six months ended 31 December 2015. This compares to \$35.7 million for the comparative six month period last year which included a \$24.7 million gain on the sale and a \$3.2 million final dividend from the investment in the Lyttelton Port Company.

The underlying port operations and investment property operating surplus before tax of \$7.1 million was 18% lower than the comparative period last year with lower cargo volumes and investment property rentals. Operating expenses were 3% higher offset by lower financing costs.

Health and safety

At the beginning of the six month period, a serious incident occurred at Port Chalmers when one of Port Otago's 4-over-3 straddle carriers toppled over, injuring the driver and resulting in a total write-off of the straddle carrier. The staff member has returned to work and has made a full recovery but the incident has highlighted the need to strive for continuous improvement in health and safety. A project to capture more leading indicators in line with our health and safety strategy is being implemented to provide the opportunity to monitor and assess the effectiveness of our health and safety systems and processes, as well as the overall health of the company's safety management systems and safety culture.

In addition to the incident described above, there were 2 further Lost Time Injuries (LTIs) during the period. At 31 December 2015, the Total Injury Frequency Rate (TIFR) on a rolling 12 month basis was 21 per million hours worked which is an improvement on the TIFR of 35 per million hours worked at 30 June 2015.

Next Generation development projects

Early in the New Year, deepening of the shipping channel to 13.5 metres chart datum to Port Chalmers was completed. This concludes

the first stage of the channel deepening project with the 13.5 metre channel providing immediate benefit to exporters and shipping lines through the wider tidal window. Use of the offshore dredging disposal site was temporarily halted when it was identified that one of the baseline studies required under the resource consent had not been completed. The offshore disposal site will be available again in March 2016. Dredging has continued using the inshore disposal site. In addition, our dredge the *New Era* is undergoing its five-yearly survey with the second stage of the channel deepening project to 14 metres commencing after this.

The project to drive a row of sheetpiles along the container wharf to safeguard the wharf structure prior to deepening the berth was also completed. This project was required to be completed prior to the cruise season commencing and was successfully achieved.

Expansion of the Port Chalmers and Sawyers Bay warehousing capacity is also progressing well and will be completed shortly. The Port Chalmers expansion provides an additional 9,500 m^2 of premium on-wharf warehouse capacity with the Sawyers Bay warehouse providing an additional 3,800 m^2 .

Interim dividend

An interim dividend of \$3.25 million, which is the same as last year, will be paid on 19 February 2016 to our shareholder, the Otago Regional Council.

Financial position

The Group remains in a strong financial position with an equity ratio of 83% and borrowings of \$52 million. Total assets of the Group are \$461 million.

Port operations - trade

Export and import container volumes of 72,300 teu (twenty foot equivalent units) were 2% lower than the comparative period. Full container exports were up by 2% which is a good result with lower dairy exports. This gain was offset by lower import volumes. Empty container throughput was down as shipping lines manage empty container volumes to meet demand. Tranship volumes were also down resulting in total container throughput of 74,000 teu compared to 77,400 teu in the previous corresponding period.

Conventional cargo tonnes decreased 13% to 636,000 tonnes with log exports 16% lower at 353,000 tonnes. Cement and fish imports were also lower but partly offset by increased volumes of fertiliser and fuel.

The lower cargo volumes resulted in 17 less container and conventional cargo vessel arrivals for the six month period compared to last year. Cruise vessels were also down 5 to 25 visits for the six months with 70 cruise vessels forecast for the 2015/16 season. The 2016/17 season will see significant growth with 91 cruise vessels confirmed.

For the six months there were 213 vessel calls compared to 235 for the previous corresponding period.

Port operations - financial

Earnings before interest, tax, depreciation and amortisation (EBITDA) for port operations were \$6.8 million, a decrease of 22% on \$8.7

million for the comparative period. Revenue from port operations was \$1.3 million lower with reduced container volumes which also affected warehouse storage activities and lower conventional cargo.

Chalmers Properties Limited (CPL)

The CPL investment property portfolio achieved an operating profit before property disposals and tax of \$4.7 million which was down 13% from the previous corresponding period. Investment property rentals were 1% lower following the disposal of several properties last year. CPL continues to search for investment properties to add to the portfolio although no opportunities have been successfully negotiated which meet the Group investment strategy in the current low market yield environment. CPL remains positioned for appropriate acquisitions as they are identified.

Development of the second stage of the Hamilton industrial land subdivision commenced in January 2016. This second stage will provide 10 hectares of developed land in addition to the remaining 8 hectares from stage 1. This quantity of land provides various options for meeting industrial user's specific requirements.

Directors

In December 2015, Ross Black retired as a Director and Deputy Chairman following a 21 year involvement with the Company. On behalf of the Board I would like to thank Ross for his contribution to the Port Otago Group.

Pat Heslin was appointed to the Board in December 2015. Pat was a partner of Deloitte for 30 years and is now an independent consultant and director based in Dunedin.

Outlook

The global shipping environment remains competitive as lines match excess international vessel tonnage with cargo volumes. Exporters are benefiting from this excess capacity, and current low fuel prices, with favourable shipping rates.

The Board remains confident in our Next Generation development strategy, particularly deepening our channel to Port Chalmers in readiness for larger vessels on the New Zealand coastline.

On behalf of the Board of Directors

David Faulkner Chairman 17 February 2016
